

POLICY ON BANK DEPOSITS -2018-2019

PREAMBLE

One of the important functions of the Bank is to accept deposits from the public for the purpose of lending. In fact, depositors are the major stakeholders of the Banking System. The depositors and their interests form the key area of the regulatory framework for banking in India and this has been enshrined in the Banking Regulation Act, 1949. The Reserve Bank of India is empowered to issue directives/ advices on interest rates on deposits and other aspects regarding conduct of deposit accounts from time to time. With liberalization in the financial system and deregulation of interest rates, banks are now free to formulate deposit products within the broad guidelines issued by RBI.

This policy document on deposits outlines the guiding principles in respect of formulation of various deposit products offered by the Bank and the terms and conditions governing the conduct of the account. The document recognizes the rights of depositors and aims at dissemination of information with regard to various aspects of acceptance of deposits from the members of the public, conduct and operations of various deposits accounts, payment of interest on various deposit accounts, closure of deposit accounts, method of disposal of deposits of deceased depositors, etc., for the benefit of customers. It is expected that this document will impart greater transparency in dealing with the individual customers and create awareness among customers of their rights. The ultimate objective is that the customer will get the services they are rightfully entitled to receive without demand.

In case the non- operation in the account is due to shifting of the customers from the locality, they may be asked to provide the details of the new bank accounts to which the balance in the existing account could be transferred.
- ii) If the letters are returned undelivered, they may immediately be put on enquiry to find out the whereabouts of customers or their legal heirs in case they are deceased.
- iii) In case the whereabouts of the customers are not traceable, banks shall consider contacting the persons who had introduced the account holder. They can also consider contacting the employer / or any other person whose details are available with them. In case of Non Resident accounts, the bank may also contact the account holders through e-mail and obtain their confirmation of the details of the account.
- iv) A savings as well as current account shall be treated as inoperative / dormant if there are no transactions in the account for over a period of two years.

The Savings Bank account can be treated as inoperative account only after two years from the date of the last credit entry of the interest on Fixed Deposit account.
- viii) Further, the segregation of the inoperative accounts is from the point of view of reducing risk of frauds etc. However, the customer shall not be inconvenienced in any way, just because his account has been rendered inoperative. The classification is there only to bring to the attention of dealing staff, the increased risk in the account. The transaction may be monitored at a higher level both from the point of view of preventing fraud and making a Suspicious Transactions Report. However, the entire process shall remain un-noticeable by the customer.
- ix) Operation in such accounts may be allowed after due diligence as per risk category of the customer. Due diligence would mean ensuring genuineness of the transaction, verification of the signature and KYC documents etc. However, it would be ensured that the customer is not inconvenienced as a result of extra care taken by the bank.
- x) There shall not be any charge for activation of inoperative account.
