

## Table DF-1

### 1. Scope of application

#### **Qualitative Disclosures:**

- a. Parent Bank: Central Bank of India

The disclosure in this sheet pertains to Central Bank of India on solo basis.

- b. In the consolidated accounts, bank's subsidiaries/associates are treated as under:

(b.i) Bank's Subsidiary: The details of Bank's subsidiary are as under:

S. No.	Name of Subsidiary	Ownership
1	Cent Bank Home Finance Ltd.	64.40%
2	Cent Bank Financial Services Ltd	100%

The subsidiaries of parent bank are consolidated on line by line aggregation of like items of assets, liabilities, income and expenses of subsidiaries with the respective item of the parent and after eliminating material intra-group balances/transactions, unrealized profit/loss and making necessary adjustments wherever possible to conform to accounting policies, based on data received from these subsidiaries duly certified by their respective auditors. The financial statements of the subsidiaries have been drawn up to the same reporting date as that of parent i.e. 31<sup>st</sup> March 2016. The accounting standard followed for the consolidation of the financial statements of subsidiaries is AS- 21.

( b.ii) Associates: The Banks associates are as under:

S. No.	Name of Regional Rural Banks	Ownership
<b>I</b>	<b>Regional Rural Banks</b>	
1	Central Madhyapradesh Gramin Bank, Chhindwara	35%
2	Uttar Bihar Gramin Bank, Muzzaffarpur	35%
3	Uttarbanga Kshetriya Gram Bank, Cooch Bihar	35%
<b>II</b>	<b>Indo-Zambia Bank Ltd., Zambia.</b>	<b>20%</b>

The accounting standard followed for accounting for investments in Associates in consolidated financial statements is as per AS-23 issued by ICAI. The method followed is equity

The financial statement of INDO Zambia Bank Ltd., considered as an associate has been prepared in accordance with the International Financial Reporting Standard. All Regional

Rural Bank and one associate are in the nature of financial entities.

For computation of CRAR of the Bank, investment in Subsidiaries and Regional Rural Banks are deducted from Tier I and Tier II capital equally.

CRAR is calculated for bank on standalone basis.

**Quantitative Disclosures**

c) The aggregate amount of capital deficiencies in all subsidiaries not included in the consolidation i.e. that are deducted and the name(s) of such subsidiaries: NIL

(d) The aggregate amounts (e.g. current book value) of the bank's total interests in insurance entities, which are risk-weighted as well as their name, their country of incorporation or residence, the proportion of ownership interest and, if different, the proportion of voting power in these entities is NIL.

**Table DF-2**

**2. Capital structure**

**Qualitative Disclosures**

**a) Equity capital**

The bank has authorized capital of Rs.5000.00 Crore as on 31<sup>st</sup> March 2016 the bank has issued, subscribed and paid up equity capital of Rs.1689.71 crore, constituting 1689714269 Number of shares of Rs.10 each.

Out of this, 79.94% shareholding constituting 1350827438 numbers of shares is with the Government of India as of 31<sup>st</sup> March 2016.

**Capital Adequacy**

<b><u>Qualitative disclosures</u></b>	
<p>(a) A summary discussion of the bank's approach to assess the adequacy of its capital to support current and future activities:</p> <p>The bank carries out regular assessment of its capital requirement from time to time to maintain the capital to Risk Weight Assets Ratio (CRAR) at desired level. The capital plan is reviewed on annual basis to take care of business growth and CRAR.</p> <p>The bank has adopted standardized approach for credit risk, basic indicator approach for operational risk and standardized duration approach for market risk.</p> <p>The bank has put in place a well laid down Internal Capital Adequacy Assessment Process to enable the bank to plan its capital requirements in relation to its business projections and to meet the risks inherent in the business. The main objective of ICAAP exercise is to identify and measure the risks that are not fully captured by the minimum capital ratio prescribed under Pillar1; the risks that are not at all taken into account by the pillar 1; and the factors external to the bank and to provide capital for such additional risks and to measure an appropriate level of internal capital as per the bank's risk appetite. The bank has also put in place the stress testing policy to measure impact of adverse stress scenario on its CRAR.</p> <p>The bank reviews the ICAAP on quarterly basis.</p>	
<b>Rs. in Crores</b>	
<b><u>Quantitative disclosures</u></b>	
<b>(b) Capital requirements for credit risk at 9%:</b>	
Portfolios subject to standardized approach –	
▪ Fund based	13706
▪ Non-fund based	1094
▪ Securitization exposures	NIL
<b>(c) Capital requirements for market risk:</b>	
▪ Standardized duration approach:	
- Interest rate risk –	767
- Foreign exchange risk (including gold) –	4
- Equity risk –	710
<b>(d) Capital requirements for operational risk:</b>	
▪ Basic indicator approach –	1219
<b>(e) Total capital ratio –</b>	<b>11.07%</b>
<b>Tier 1 capital ratio</b>	<b>7.44%</b>

## **General qualitative disclosure requirement**

A committee of board of Directors regularly oversees the Bank's Risk Management policies/practices under various risks viz. credit, operational, market etc. The bank also has separate committees for each risk comprising of top executives of bank headed by Chairman and Managing Director/ Executive directors such as Asset liability Management committee, Credit policy Committee, Operational Risk committee. These committees meet at regular intervals throughout the year to assess and monitor the level of risk under various bank operations and initiate appropriate mitigation measures wherever necessary.

The Risk Management Department at central office level which is headed by General Manager; measures control and manages risk within the limits set by the Board and enforces compliance with risk parameters set by various committees. The General Manager is assisted by Deputy General Manager and a team of Assistant General Managers, Chief Managers, Senior Managers and Managers.

At some identified zonal offices, Risk Managers are posted who act as an extended arm of the Risk Management Department of Central Office. Officers are also identified at some regional offices to work as risk managers.

The bank has in place various policies such as Credit Risk Management Policy, Credit Risk Mitigation and Collateral Management Policy, Stress testing policy, Disclosure policy, Intra group transaction and exposure policy, Operational risk policy, ALM policy and Investment and Market risk management Policy.

Besides these, the Loan Policy prescribing broad parameters governing loan functions, guidelines on appraisal and evaluation of credit proposals, lending powers of delegated authority, exposure norms, prudential limits and measures of monitoring and controlling the credit portfolio documentation is also in place.

The Credit Monitoring Department headed by General Manager monitors the loan portfolio, identify special mention accounts and take corrective measures. Loan review mechanism is also carried out by the department apart from processing and monitoring of accounts under CDR mechanism.

The bank has introduced rating models for various segments of borrowers including retail lending schemes which measures the risk associated with counterparties and helps in credit and pricing decisions. In case of large borrowers, credit risk assessment models evaluate financial risk, Industry risk, Management risk and business risk of the counter party and each of these risks are scored separately then overall rating is accorded to the counter party. Facility rating module is also available in the rating tool. Where parental support is available the same is also factored in rating, if corporate guarantee is available to the borrower

## Table DF-4

### Credit risk: General disclosures for all banks

#### Qualitative Disclosures

#### Credit risk

Definitions of past due and impaired

A Non Performing Asset shall be a loan or an advance where-

- (i) Interest and/or installment of principal remain overdue for a period of more than 90days in respect of a Term Loan;
- (ii) The account remains out of order for 90 days
- (iii) The bill remains overdue for a period of more than 90days in the case of bills Purchased and Discounted
- (iv) In case of advances granted for Agricultural purposes
  - a) The installment of principal or interest thereon remains overdue for two crop seasons for short duration crops
  - b) The installment of principal or interest thereon remains overdue for one crop seasons for long duration crops
- (v) The amount of liquidity facility remains outstanding for more than 90 days, in respect of a securitization transaction undertaken in terms of guidelines on securitization dated February 1, 2006.
- (vi) in respect of derivative transactions, the overdue receivables representing positive mark to- market value of a derivative contract, if these remain unpaid for a period of 90 days from the specified due date for payment.

#### **Out of Order:**

An account should be treated as “out of Order” if the outstanding balance remains continuously in excess of the sanctioned limit/drawing power. In cases where the outstanding balance in the principal operating accounts less than the sanctioned limit/drawing power, but there are no credits continuously for 90 days as on the date of balance sheet or credit are not enough to cover the interest debited in the account during the same period.

#### **Overdue:**

Any amount due to the bank under any credit facility is overdue if it is not paid on due date fixed by the bank.

#### **Credit Risk Management Policy**

Bank has put in place a well-articulated Board approved Credit Risk Policy which is reviewed annually. The policy deals with the following areas:

- Credit risk- definition, Policy and strategy
- Risk identification & measurement,
- Risk grading and aggregation,

- Credit risk rating framework and reporting,
- Risk control and portfolio management,
- Mitigation techniques,
- Target markets and type of economic activity,
- Credit approval authority,
- Country and currency exposure,
- Maturity patterns, level of diversification,
- Cyclical aspect of the economy,
- Credit risk in off balance sheet exposure,
- Credit risk monitoring procedures
- Managing of credit risk in inter Bank Exposure,
- Country risk and other operational matters.

## Table DF-8

### Market risk in trading book

#### **Qualitative disclosures**

The bank has well defined Investment and Market Risk Management Policy. This policy covers all important areas of market risk measurement.

Bank defines Market Risk as the risk of loss in on-balance sheet and off-balance sheet positions arising from movements in market process, in particular, changes in interest rates, exchange rates and equity and commodity prices.

The bank has adopted Standardized Duration Approach for measuring the capital requirements for market risk as prescribed by RBI.

#### **Policies for management of Market Risk:**

The bank has put in place board approved Investment and Market Risk Management Policy for effective management of Market Risk in the bank. Other policies which also deal with Market Risk Management are Asset Liability Management Policy and Policy on Foreign Exchange Operations.

The policies set various prudential exposure limits and risk limits for ensuring that the operations are in line with bank's expectations of return through proper Market Risk Management and Asset Liability Management.

#### **Asset-Liability Management**

The ALM Policy is the framework of the ALM process. Bank's balance sheet has mixed exposure to different levels of financial risk. The goal of bank is to maximize its profitability, but do so in a manner that does not expose the bank to excessive levels of risk which will ultimately affect the profitability. The Policy defines the limits for key measure of risk limits that have been established to specifically accommodate a bank's unique balance complexion, strategic direction, and appetite for risk.

#### **Liquidity Risk**

Liquidity Risk is managed through GAP analysis, based on residual maturity/behavior pattern of assets and liabilities. Banks has also put in place mechanism of short term dynamic liquidity management and contingency funding plan. Prudential limits are prescribed for different residual maturity time buckets for efficient Asset Liability Management Liquidity profile of the bank is also evaluated through various liquidity ratios.

**Interest rate risk**

Interest rate risk is managed through Gap analysis of rate sensitive assets and liabilities and is monitored through prudential limits. Bank also estimates risk periodically against adverse movements in interest rate for assessing the impact on Net Interest Income and economic Value of Equity.

**Quantitative disclosures**

<b>Capital Requirement for Market Risk</b>	<b>Capital Charge</b>
<b>Interest Rate Risk</b>	<b>Rs. 767 Cr</b>
<b>Equity Position Risk</b>	<b>Rs. 710 Cr</b>
<b>Foreign Exchange Risk</b>	<b>Rs. 4 Cr</b>
<b>TOTAL</b>	<b>Rs. 1481 Cr</b>

## Table DF-9

### Operational risk

#### **Qualitative disclosures**

Operational Risk is the risk of losses resulting from inadequate or failed internal processes, people and systems or from external events. Operational Risk includes legal risk but excludes strategic and reputation risks. Operational Risk Management in the Bank is guided by a well defined Operational Risk Management Policy which is reviewed every year. The bank has initiated pro-active steps to equip itself to migrate to advanced approaches under Operational Risk and has started collation of data pertaining to Operational Risk loss events through Loss Data Management, Risk & control Self Assessment (RCSA), Key Risk Indicators (KRI) & Scenario Analysis. Bank is also a member of loss data consortium 'CORDEX' for external loss data base.

The Bank had already approached RBI for moving to The Standardised Approach and is now making efforts to move directly to Advance Measurement Approach.

The bank has provided capital for operational risk as per Basic Indicator Approach. Accordingly the capital requirement for operational risk as on 31.03.2016 is Rs. 1219 Crores.

## Table DF-10

### Interest rate risk in the banking book (IRRBB)

#### Qualitative Disclosure:

The interest rate risk is measured and monitored through two approaches:

1) Earning at risk (Traditional Gap Analysis)

The impact of change in interest rates on net interest income is analyzed under this approach and calculated under yield curve approach. Under this approach a parallel shift of 1% is assumed both in assets and liabilities.

2) Economic Value of Equity:

Modified duration of assets and liabilities is computed separately to arrive at modified duration of equity. A parallel shift in yield curve by 200 basis point is assumed for calculating the economic value of equity.

#### Quantitative Disclosure:

Parameter of Change	Rs. in Crores
1.Impact on Earnings at 100 bps increase in interest rate across assets and liability	342
2.Market value of Equity: 200 bps change	-191
